

Do not allow this deregulation to pass. These regulations were explicitly designed to prevent the monopolization of PUBLIC air waves. As a result of the mid-ninties deregulation we have already seen monopolization by such corp. as 'Clear Channel', and they are not serving the interest of the American people. If the FCC passes this deregulation, the monopolzation of local radio, newspaper, and TV will be a highly undemocratic act and will speed the further collapse of this great country.
